

## Mentor SL EE811 digital ISDN master desk station

Secure inter-communications system for high integrity, life safety applications

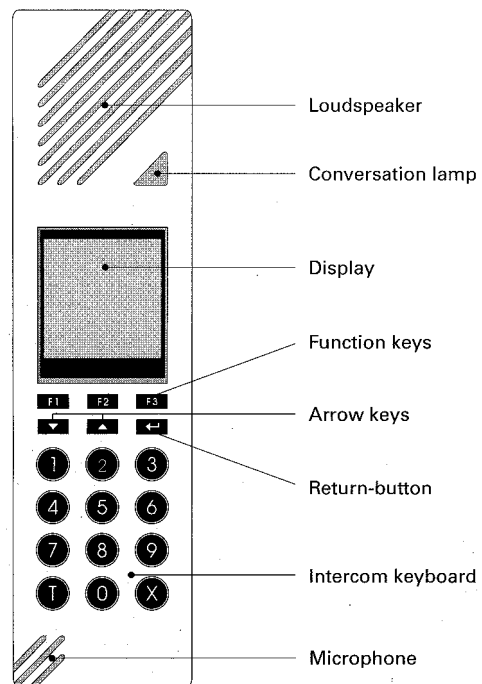

The new generation, state of the art intercom desk stations are based upon the standard ISDN, Integrated Service Digital Network technology (2B+D), and is manufactured using the latest "Surface Mount Devices" (SMD). This proven technology is packaged in a stylish and practical ergonomic enclosure for both hands free desk operation and hand held operation for privacy.

The digital ISDN connectivity is used for both speech and data, this provides optimum reliability and excellent speech clarity and intelligibility. This is combined with a large eight-row alpha numeric LCD display which displays the operation status of the desk station and various other features, which are dependent on the facilities incorporated in the central exchange.

In addition to the full keypad, three function buttons are provided. These keys may be used in alternative ways depending on how the system is configured and programmed, however these are typically used for functions such as electronic volume control and display scrolling etc.

### Technical Data

Model Number	SL-EE811
Certification	Safe Area
Ingress Protection	IP 50
Power Supply	Line Powered
Communications protocol	Digital, ISDN
Frequency Response	200 – 9.5 KHz
Unit Connection	3m lead with RJ11 plug
Exchange Connection	Single Pair Cable
Connectivity Distance	3 Km @ < 45nf
Exchange Compatibility	SL-GE700
Unit Dimensions	66 x 240 x 58 mm
Unit Weight	380 g
Housing Material	ABS Plastic
Unit Colour	Black & Translucent Blue
